

Impose Fire Ant Killer

For residential lawn use only

- Kills the queen in 24 hours
- 4 Month Fire Ant Control
- Apply twice for season long control

Active Ingredient

Bifenthrin*	0.20%
Other Ingredients:	99.80%
Total	100.00%

*Cis isomers 97% minimum, trans isomers 3% maximum.

KEEP OUT OF REACH OF CHILDREN CAUTION

See back/side panels for precautionary statements and directions for use.

Net Contents: 10 lbs

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing.

FIRST AID	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the Poison Control Center 800-222-1222.	
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice
Note To Physician: This product is a pyrethroid. If large amounts have been ingested, milk, cream, and other digestible fats and oils may increase absorption and so should be avoided.	

ENVIRONMENTAL HAZARDS: This product is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

Directions for use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For extended fire ant control and prevention, apply Impose Fire Ant Killer two times per year:

Spring: March-May **Late Summer:** August- September

Amount to Use: Broadcast Application

Apply uniformly over your lawn using the suggested spreader settings. Water lawn after application to wash granules from the lawn foliage. For best results, apply during the morning or late evening when it is cool and the ants are most active. Don't treat just the infested areas of the lawn where mounds are visible. Treat the entire lawn area to prevent reinfestation of fire ants from neighboring areas.

Amount to Use: Mound Application

Control will be optimized by combining broadcast applications that will control foraging workers and newly mated fly-in queens with mound treatments that will kill existing colonies. If the soil is not moist, then it is important to irrigate before application. Mounds should be treated by applying 1 cup of Impose Fire Ant Killer per mound and then drenching the mound with 1 to 2 gallons of water. The mounds should be treated with sufficient force to break their apex and allow the insecticide solution to flow into the ant tunnels. A four-foot diameter circle around the mound should also be treated. For best results, apply in cool weather (65-80°F) or in early morning or late evening hours. This treatment will kill the queen within 24 hours of application.

Important: Food utensils such as teaspoons and measuring cups must not be used for food purposes after use with pesticides.

In New York State, this product may NOT be applied to any grass or turf area within 100 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch).

In New York State, do make a single repeat application of Impose Fire Ant Killer if there are signs of renewed insect activity, but not sooner than two weeks after application.

Do not allow children or pets on treated areas until granules have been watered into the soil and the grass or soil is dry.

Spreader	Spreader Settings- Covers 5,000 sq. ft.	Directions
Scotts® AccuGreen Drop Spreaders	6	Mow lawn first if grass is tall enough to touch the bottom of the spreader. First apply two header strips. Operate spreader the longest way of the lawn. Overlap wheel marks to ensure uniform coverage. Shut off spreader when you have reached the header strips or stopped.
Scotts®EasyGreen® Rotary Spreader	26	Slide shut-off lever to the right; application automatically starts and stops when you do. For complete coverage make each pass about 30 inches from the previous one so some overlapping occurs.
Scotts®SpeedyGreen® Rotary Spreader	5	Shut off spreader anytime you stop. For complete coverage make each pass about five feet from the previous one, so some overlapping occurs. Avoid applying this product on vegetables.

Spreader settings are approximate. You may need to adjust for proper coverage.

Impose Fire Ant Killer kills the following types of ants: Fire Ants, Argentine Ants, Carpenter Ants, Odorous Ants, Pyramid Ants, Pavement Ants, Pharaoh (sugar) Ants, Red Harvester Ants

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in cool, dry area away from children and domestic animals.

Disposal: If empty: Do not reuse this container. Do not rinse unless required for recycling. Place in trash. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Unless otherwise instructed, place in trash. Never pour unused product down the drain or on the ground.

NOTICE: Buyer assumes all risks of use, storage or handling of this product not in accordance with directions.
