

ENCLAVE

— SNOW MOLD CONTROL —

ASSURANCE

— PROGRAM —

SNOW MOLD CONTROL YOU CAN COUNT ON.
Backed by the **Enclave® Snow Mold Control Assurance Program.**

When winter conditions put your turf to the test, you need snow mold control you can count on. Enclave® Fungicide provides preventive snow mold control, and Quali-Pro stands behind its performance.

When Enclave is applied preventively for snow mold according to the product label, **its performance is backed by the Enclave® Snow Mold Control Assurance Program.**

If unacceptable snow mold breakthrough occurs following a qualifying Enclave application, **Quali-Pro will replace the Enclave product used in the affected treated area.**

HOW THE ASSURANCE PROGRAM WORKS

To qualify for the **Enclave® Snow Mold Control Assurance Program:**

- Enclave must be purchased from an authorized Quali-Pro distributor.
- Enclave must be applied preventively for snow mold at the labeled rate and in accordance with all label directions.

- Application date, rate, and treated acreage must be documented.
- Any claim must be reported to your Quali-Pro representative promptly after snow melt and discovery of breakthrough.
- Quali-Pro reserves the right to review application records and evaluate the affected area before approving a claim.

OUR COMMITMENT

You count on Enclave to help protect your turf through challenging winter conditions. We stand behind that performance.

Apply Enclave with confidence, knowing your application is backed by the **Enclave® Snow Mold Control Assurance Program.**

Approved claims are limited to replacement of the Enclave product used on the affected treated area. The Enclave® Snow Mold Control Assurance Program does not cover labor, application costs, turf replacement, consequential damages, or other associated expenses. All applications must be made in accordance with the Enclave product label.
