

PRESS RELEASE (for immediate release)

Quali-Pro's New Taurus[®] Trio G: Faster fire ant control with long residual.

Pasadena, Texas - June 14, 2016

Control Solutions Inc. (CSI) is launching, Taurus Trio G, a new Quali-Pro branded insecticide. When Taurus Trio G is used for fire ant control, it will provide quick knock-down and long residual performance on all ants, mole crickets, fleas and ticks. Taurus Trio G is registered for use by licensed applicators for broadcast applications on turfgrass and landscaped areas including golf courses, residential, commercial, outdoor containerized nurseries, industrial areas, cemeteries, parks, campsites, schools, sports fields, and sod farms. Taurus Trio G can also be used for fire ant mound, perimeter, and boundary treatments.

The 30 pound bags contain three very effective active ingredients formulated on a Verge granule to provide outstanding performance. The granules are uniform in size (140 SGN), dust-free, and disintegrate upon contact with water; providing simple, clean, uniform and effective applications. Taurus Trio G can be easily applied with most spreaders and minimal PPE is required.

About Control Solutions Inc. (CSI)

Control Solutions began as a family owned business in 1958 and is built on to the commitment of serving the professional pest control and retail markets. CSI has added product lines for the Industrial, Lawn and Garden, Turf, Animal Health and Biocide markets, and is working with over 80 distributors serving those markets. Control Solutions maintains relationships with chemical manufacturers worldwide and provides a ready supply of products in distribution warehouses across the U.S. The partnership with ADAMA/Makhteshim-Agan Industries multiplies Control Solutions' agility in continuously adding new products to meet the needs of professionals and homeowners. "The one constant since the beginning in 1958 is our mission focus: to seek out and distribute effective and economical solutions for our customers," stated Mark Boyd, President and founder of CSI.
